Developer log entry for today: [view it here \(developer log day 450\)](#)

---

I am still deciding on what to do next. I am continuing the creation of separate update log and developer log entry pages for articles before February 29th 2020, but I am doing very little other than that. Today, I did an ideaboard update along with the documentation, plus did some testing of the marquee HTML tag, which is deprecated. I made a joke page about 90s Internet with the style of old Internet pages, as a practice of my skills. I didn't do much today.
