I was really out of it today. I was going to do more, but I had some focus issues. I stayed up really late last night, and had difficulty getting to work today. I have been taking too much downtime lately. I still did get some work done today.

Today, I worked on documentation, and some changes to further modernize the SNU internet museum. I have a lot going on at the moment, and it has been difficult going with site development. I am also going to try and learn SQL again soon. Today wasn't a very good day for development, but it was better than nothing.
