# View in separate page

---

**Developer log entry for today:** <u>view it here (developer log day 478)</u>

---

**I picked up the pace today and did a little more. I am still getting into schedule, this will take a while. Today, I added another important part of the SNU data management system, which is user history (search, watch, etc history) this feature is also currently just a template, as SNU still doesn't have upload functionality. I also updated the main SNU data management center page.**
